

Studio summary

DevHaven Studio combines frontend delivery, practical backend workflow experience, digital skills training, and conversion-focused thinking to help brands launch websites and systems that are easier to trust, easier to use, and easier to grow.

What DevHaven delivers

- Responsive websites for individuals, brands, organizations, and companies
- Backend/frontend implementation and cleanup
- Academy systems, checkout flow, and training pages
- Landing pages, funnels, and ecommerce support
- Digital support, deployment guidance, and technical troubleshooting

Selected project proof

- AFSS Egosi-Ile official school website and digital presence
- DevHaven Academy enrollment and checkout experience
- Business landing pages with WhatsApp-first conversion flow
- School CBT portal exam work showing PHP and MySQL workflow knowledge
